EPE Foam Insert System

GENERAL WORKSHOP EQUIPMENT

EPE Foam Modular Insert Tray System

EPE Foam Modular Tool Control System

Spanner & Socket sets and tool kits now feature new EPE form insert trays to reduce wear on tools and keep them well-organized. Ideal for tool cabinet arrangements or tool box storage.

EPE tool control system trays are designed to use in professional workshops. The top grade quality "high density closed cell" EPE form tray resists to liquids and will not become tacky or sticky. It can be easily clean with a pressure washer. These EPE form trays are precisely made and cut by CNC machinery, each cavity is purposely designed for each tool to ensure a perfect fit. The black top and vivid green base makes it possible to instantly recognize if all tools have been returned after use.
