

PAINTLESS DENT REMOVAL TOOLS

Professional PDR light with great features

- Base frame with 135° degree arched and extended legs. Rigid all-metal frame structure.
- Support pillar with a diameter of 2.5cm for long lift adjustment.
- Height adjustment between 1m-1.7m, maximum lifting 1.95m
- Designed with new clamping head for quick and easy lift adjustment.
- Fixture rotates a full 360 degrees.

PDR single layer brace long rods

Tools with various sizes and shapes

Suitable for removing most minor, and even some major dents on bonnets, doors, fenders, trunk lids...etc.

High strength and flexibility provide a perfect way to repair

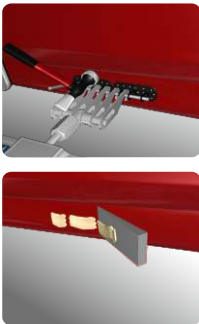

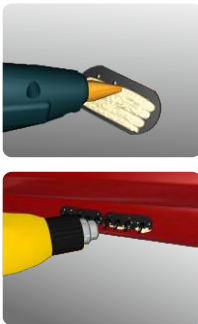

PDR double layer brace short rods

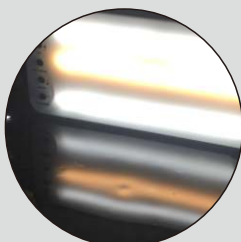

DENT REPAIR GLUE PULLING KIT

Quick repair method that won't damage paint surface

This method can quickly repair minor collisions to the car body. After confirming the elastic deformation of the car body, safely and quickly repair it without damaging the paint surface or disassembling any components.

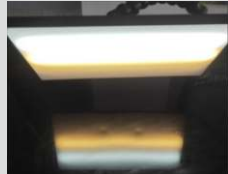

PDR LINE BOARD

No.F6005 (optional)

Each light emitter can be controlled individually. Adjustable color temperature

Specification of power adapter

Input voltage	Output voltage	Rated power	Weight
100~240V	12V	8W	0.8kg
Input current	Output current	External dimension	
1.5 50/60Hz	5A	425x200x45mm	

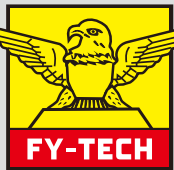

Focus on collision repair with infinite innovation

PAINTLESS DENT REMOVAL

Equipment subject to change without notice. This catalogue is for reference only the actual products serve as standard (2024 version)

PAINTLESS DENT REMOVAL

FY-HI-1100W

 Only need 20 seconds to repair dent

Tool Trolley(optional)

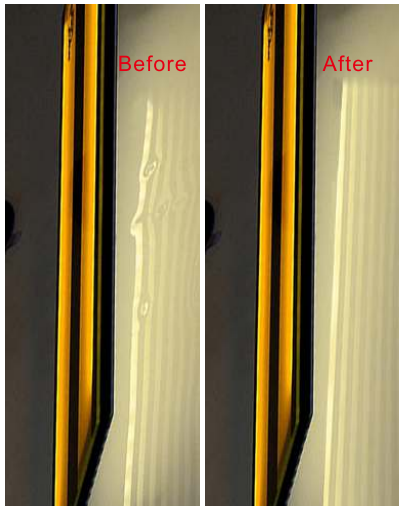

- 1.Environment friendly product without welding, puttying and painting.
- 2.Electromagnetic tool with advance technology, easy to use.
- 3.Compact size, low cost investment and high return
- 4.Quick and easy way to repair car body without damaging body paint
- 5.Extensive use, simple way to repair the dent of car body.

Technical Data		
Input voltage	Rated power	Rated input current
230V	1100W	6A
Frequency	Efficiency	Power factor
50/60Hz	≥90%	≥0.95
Insulation grade	Main unit size	Main unit weight
F	26x17x20cm	3kg

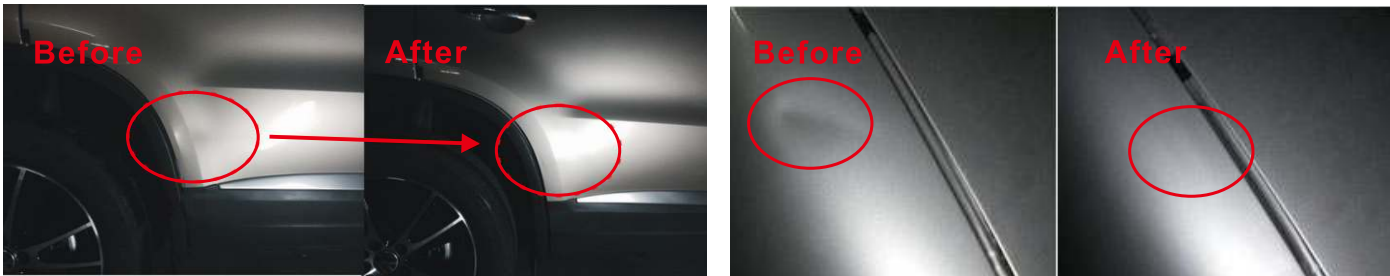

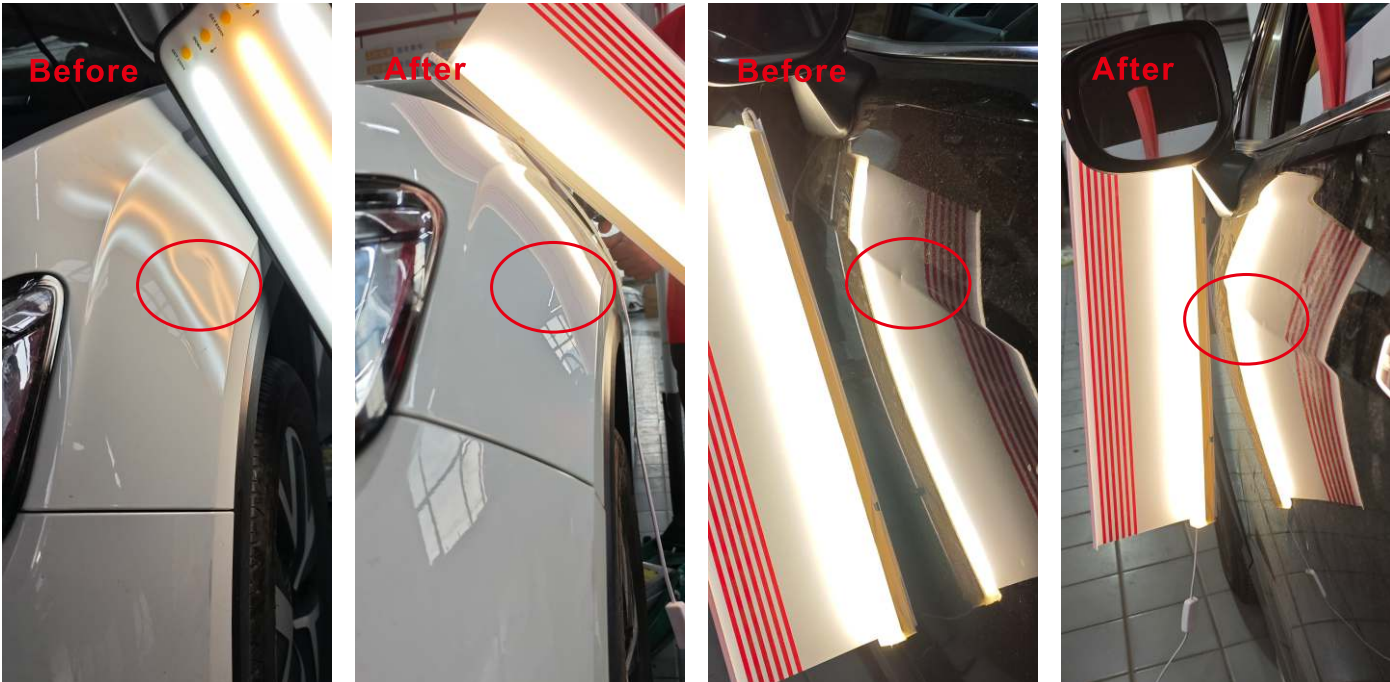

DESCRIPTION

- ▶ Car body collision repair is an advance technology for repairing various of dents on the car body caused by strike or impact. Comparing with traditional repair processes, the collision repair can offer more advantages such as shorter repair time, better repair result and less labor cost, suitable for use on repairing car doors, bonnets, trunk lids..etc.
- ▶ IGBT inverter technology, high efficiency, energy saving and environmental protection.
- ▶ Control panel with digital LCD for setting time and power, simple and easy to use.
- ▶ Compact size and light weight, suitable for different working conditions.

Paintless dent removal head

Restoration effect

Takes the need for paint to repair small dents out of the equation!
